

**COMPUTER ENGINEERING INTERNSHIP
ARTIFICIAL INTELLIGENCE STARTUP FOR SMART BUILDINGS**

6 MONTH DURATION - LYON/FRANCE AND SINGAPORE

COMPANY INFORMATION

BeeBryte is using artificial intelligence, IoT and Blockchain to get commercial buildings and factories to consume electricity in a smarter, more efficient and cheaper way while reducing carbon footprint.

Our software-as-a-service is minimizing utility bills with automatic control of heating-cooling equipment (e.g. HVAC) and/or batteries. Based on weather forecast, occupancy and energy price signals, BeeBryte generates up to 40% savings.

We have offices in Singapore & Lyon/France. BeeBryte was initially accelerated by Intel and one of its shareholders is CNR (the largest renewable energy producer in France).

Our mission is to empower customers to gain access to cheaper, cleaner and smarter energy by re-inventing the electricity future with both digital and business model innovations.

Come & join us!! We are currently seeking a Computer Engineering Intern for 3 months in Lyon-France and 3 months in Singapore.
